

Erratum

Erratum to “Volumetric properties of ethanol–water mixtures under high temperatures and pressures” [Fluid Phase Equilibria 230 (2005) 36–44]

Darja Pečar*, Valter Doleček

Received 24 November 2003; received in revised form 5 November 2004; accepted 10 November 2004

Available online 13 June 2005

The authors regret errors in Table 1 in the above mentioned article. They are reproduced correctly below. The errors occurred because of an improper mark of composition of ethanol–water mixtures. So, when cited we supposed that x was the mole fraction in percent and not the mass fraction in percent, which should be marked with w .

The agreement between experimental density values and literature data is good.

The authors apologize for inconvenience caused to Dr. D.T. Safarov and Prof. A.N. Shakhverdiev.

Table 1
Comparison of experimental and literature values of densities

T (°C)	p (MPa)	x_1	ρ_{exp} (kg/m ³)	ρ_{lit} (kg/m ³)	Reference
